### **Timur's Stories**

#### **Introduction**

Friends, greetings to you! Thank you for showing interest in my stories. My stories are about time travel, about my watch with superpowers, about meeting a ghost, and much more. I really hope you will like them.

Let's get acquainted.

My name is Timur, I am eight years old. I will say a few words about our family, as they are the main characters in my stories. I have a little sister, Sofia, she is six, and a little brother, Egor, he is only three years old. Dad works as an IT specialist: from morning till evening he sits in his office at the computer typing on the keyboard. And mom is a housewife. Three years ago we moved from Russia to Serbia and now live in a small town. Yes, we also have Grandma Galya. She lives in Istanbul and comes to visit us twice a year. For me, my sister, and my little brother, she always arranges different quests, but that is a completely different story.

##### **Microchip**

I want to tell you a big secret story that happened to me! You won't believe it, but it's pure truth. I only confessed to my little sister and Grandma Galya. Mom and Dad – no, they still wouldn't believe it. It would be great if scientists got interested in my case!

In my free time from school, I love building with Lego. I even built a time machine from the movie "Back to the Future" with the main characters Doc and Marty. To make it really move, I took apart my old remote-controlled car and transferred the remote to this one, made from the constructor.
