Слово автора

Уважаемые читатели!

Эта книга адресована учителям, которые готовят своих учеников к ЕГЭ по английскому языку, и ученикам, выбравшим путь самостоятельной подготовки.

Задание 38 — одно из самых сложных в письменной части экзамена. Оно требует не только владения языком, но и умения анализировать данные, видеть проблему, формулировать её и предлагать убедительное решение. Именно этому ключевому аспекту посвящена моя книга.

В книге вы найдёте:

— раздел с подсказками, как формулировать проблему в задании 38 ЕГЭ по английскому языку;

— разбор того, как проблема и её решение должны быть представлены в тексте эссе;

— практические рекомендации по написанию;

— раздел для практики — возможные проблемы, разбитые по темам, перечисленным в кодификаторе экзамена;

— примеры возможных проблем и их решений.

Вы можете использовать данную книгу как готовый материал для уроков и факультативов, а также как надёжный тренажёр для отработки одного из самых сложных элементов эссе.

Желаю вам плодотворной работы, уверенности в своих силах и высоких результатов!

С уважением,

Елена

С Выдающиеся люди родной страны и страны/стран изучаемого языка: государственные деятели, учёные, писатели, поэты, художники, композиторы, путешественники, спортсмены, актёры и т. д.

На основе данных тем мы попытаемся сформулировать возможные проблемы, связанные с ними, и предложить их решение.

В сочинении необходимо обозначить любую возможную проблему, связанную с темой проекта, и предложить её решение.

Проблема должна быть реалистичной и очевидной, а её решение — также реалистичным и конкретным.

Нельзя предлагать нереальную или нелогичную проблему, а также реальную проблему с абсурдным решением. Нельзя также решать проблему путём избегания ситуации, в которой она возникает.

Шаблон, который можно использовать для данного абзаца:

1) Unfortunately, some problems can arise with (переписать формулировку из 4 пункта плана).

2) One of the problems is (прописываем саму проблему).

3) I guess, *the best solution to this problem/the best way of solving this problem* is to…

Где и как искать проблемы? Для этого я предлагаю проанализировать утверждение, используя следующие темы:

— Время (занимает очень много времени).

— Деньги (стоит дорого).

— Здоровье (можно получить травмы).

— Отношения (могут ухудшиться отношения с родителями, друзьями).

— Работа/учёба (может плохо сказаться на учёбе, работе, подготовке к экзаменам).

— Развлечения/досуг (отсутствие развлечений, удовольствия, возможности весело проводить свободное время).

— Физическая нагрузка (тяжело или легко; чувство усталости) и т. д.

Как решать проблемы? Вы можете решить проблему самостоятельно, с помощью родителей, учителей или государственного регулирования.

Например, возьмем следующее утверждение:

Outline a problem that can arise with going to fast food outlets and suggest a way of solving it.

— Время

Unfortunately, some problems can arise with going to fast food outlets. One of the problems is that waiting in long queues can take a lot of time and may make a person be late for other appointments. I guess, the best way of solving this problem is to order online or use a mobile app for collection.

— Деньги

Unfortunately, some problems can arise with going to fast food outlets. One of the problems is that spending too much money on fast food can leave less money for other needs. I guess, the best way of solving this problem is to set a monthly limit for eating out, cook meals at home more often, and choose cheaper menu options going to fast food outlets.

— Здоровье

Unfortunately, some problems can arise with going to fast food outlets. One of the problems is that fast food is usually unhealthy and can cause health problems like weight gain, heart issues, and low energy. I guess, the best way of solving this problem is to limit fast food places visits to special occasions and choose healthier options like salads or grilled items to stay healthy.

— Отношения

Unfortunately, some problems can arise with going to fast food outlets. One of the problems is that frequent visits to fast food places can lead to arguments with parents, as they may worry about their child's health and nutrition. I guess, the best way of solving this problem is to talk to parents openly and agree on a balance, such as limiting fast food to once a week and eating healthier meals at home on other days.

— Работа/учеба

Unfortunately, some problems can arise with going to fast food outlets. One of the problems is that eating junk food can make a person feel tired and unfocused, which can have a bad effect on his or her studies or work. I guess, the best way of solving this problem is to choose healthier options like salads or grilled items when eating out, and to have a balanced meal before studying or working to control energy level.

— Развлечения/досуг

Unfortunately, some problems can arise with going to fast food outlets. One of the problems is that it can reduce the pleasure of eating out, as eating fast food often feels rushed and less enjoyable than a proper meal with family or friends. I guess, the best way of solving this problem is to treat fast food as an occasional choice and to go to nicer cafes or restaurants when there is time to relax.

— Физически тяжело

Unfortunately, some problems can arise with going to fast food outlets. One of the problems is that such food can cause tiredness, as it is often heavy and high in fat and sugar, which can make a person feel sluggish and lacking in energy afterwards. I guess, the best way of solving this problem is to choose healthier options on the menu, eat smaller portions, and balance fast food with physical activity.
